See more at IpswichLibrary.org

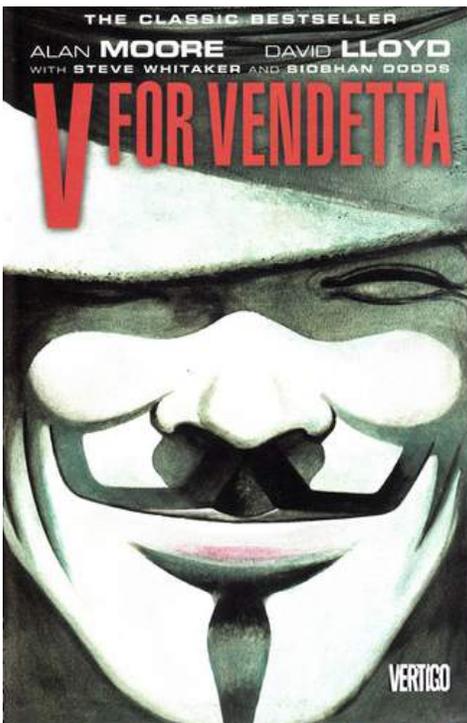

Greetings!

It's almost Spring and we've (knock on wood) endured the last of this winter's storms. If you were thinking about borrowing some of our new snowshoe kits from our Library of Things, you might want to get them before the snow melts! There's lots of great things happening at the Library this March such as our monthly book clubs and events for children, teens, AND adults. We hope to see you there!

Sincerely,

Ipswich Public Library Staff

Spotlight

IPL's New Book Clubs Are a Hit!

Booker Bookies and the Adult Graphic Novel Book Club debuted in February, both attracting Ipswich's voracious readers to the Library for in-person discussions about captivating and award-winning literary fiction and graphic novels.

Both book clubs still have open spots available, with registration encouraged. Visit IpswichLibrary.org/Events to see when our book clubs are happening and what they're reading next!

Alan Moore's **V for Vendetta** is the title for March's Adult Graphic Novel Book Club on 3/14. Pick up one of the copies reserved for the book club at the Main Desk!

IPL Children's Grant-Sponsored Programs Will be Combining Movement, Dance, and Learning in the Library this March

The Children's programs **Movement for the Little Ones** and **Movement Mapping** are being brought to the Library thanks to a grant sponsored by the Ipswich Cultural Council, which is supported by the Massachusetts Cultural Council. These programs will be under the direction of Jenny Carlson, owner and director of High Street Studios in Ipswich.

Movement for the Little Ones is for caregivers with children ages 2 to 5. This creative movement program will explore concepts of space, time, and energy while developing self-awareness, flexibility, and coordination.

Movement Mapping is for students in grades 1 to 5 and combines a STEM activity with the art of dance. Symbols designate different dance moves and students draw and design their own choreography map! The participants will perform the dance that they drafted on paper and then the dancers will perform each other's movement maps. Math, science, and dance all in the same program!

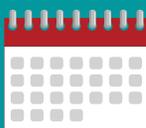

Both programs are happening on March 11th, 18th, and 25th. Children and caregivers can attend any number of sessions as available. Go to IpswichLibrary.org/Events to register and get more information.

IPL's Library of Things Continues to Expand

The Library of Things continues to grow and offers our community an opportunity to try items out before deciding to purchase them as well as the ability to choose a more sustainable option by sharing tools and resources.

Staff Picks

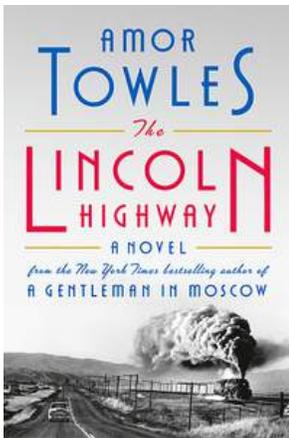

Leave the Gun, Take the Cannoli

by Mark Seal (Non-fiction)

Recommended by Nancy

The story of how *The Godfather* was made is as dramatic, operatic, and entertaining as the film itself. Over the years, many versions of various aspects of the movie's fiery creation have been told—sometimes conflicting, but always compelling. Mark Seal sifts through the evidence, has extensive new conversations with director Francis Ford Coppola and several heretofore silent sources, and complements them with colorful interviews with key players including actors Al Pacino, James Caan, Talia Shire, and others to write “the definitive look at the making of an American classic”.

The Lincoln Highway

by Amor Towles (Non-fiction)

Recommended by Laurie

In June, 1954, eighteen-year-old Emmett Watson is driven home to Nebraska by the warden of the work farm where he has just served a year for involuntary manslaughter. His mother long gone, his father recently deceased, and the family farm foreclosed upon by the bank, Emmett's intention is to pick up his eight-year-old brother and head west where they can start their lives anew. But when the warden drives away, Emmett discovers that two friends from the work farm have hidden themselves in the trunk of the warden's car. Together, they have hatched an altogether different plan for Emmett's future.

Spanning just ten days and told from multiple points of view, Towles's third novel will satisfy fans of his multi-layered literary styling while providing them an array of new and richly imagined settings, characters, and themes.
